Click Here Continue to Scratch download

You don't need to fill out this information

Choose Mac or Windows and Click Run and Run

How to upload and download projects using Scratch

Your classroom teacher has given you a username and password for your class:

Username: _____

Password: _____

At school you will work on your project in the lower computer lab. When you are out of time, if you would like to work on your project at home you need to upload your project to the website.

First, make sure you save your project to your H:Drive

Now to upload it to the Website click on SHARE!

When you get home you will need to go onto the SCRATCH website at www.scratch.mit.edu
Make sure you have downloaded SCRATCH on your computer (see above directions)

On the SCRATCH website login to your classroom account using your username and password.

Click on your project

Click on Download Project and Open it in SCRATCH

When you are done working on your project at home you will need to upload it to the website again so you can access it and work on it at school.
